HPD2026	PX-40 Medium	28g
HPD2027	PX-400 Thick	28g

Aftercare

NITRADINE®

Most removable dental appliances are made from porous materials in which opportunistic and pathogenic microorganisms (fungi, bacteria and viruses) infiltrate, attach and form biofilm, a three-dimensional protective matrix in which they build-up. Candida albicans in particular deeply penetrates the pores and cracks of the dental appliance. Also other pathological microorganisms such as Pseudomonas aeruginosa, Streptococcus mutans, Staphylococcus aureus (inc. MRSA) and Herpes simplex can attach to and colonise the appliance which leads to painful irritation of the oral cavity (denture stomatitis).

Elderly, diabetic, transplant and cancer therapy patients wearing contaminated appliances can develop serious systemic infection of the upper airways. Clinical trials have shown that Nitradine® tablets result in a 99.995% bio-film reduction. Nitradine® contains no bleach and will not discolour retainers or aligners, in fact removing the Candida albicans and bacteria will restore the clarity of the device. Designed to be used once or twice a week alongside an existing hygiene routine.

Code: 01NUT20	Pack: 20pcs

Aftercare

NITRADINE® SHINE

With its "anti-biofilm" formula, Nitradine® Shine has been specially formulated to clean, whiten, refresh and polish removable dental appliances. Designed to be used on a daily basis and should ideally be used in conjunction with Nitradine® Tablets. Nitradine® Shine will not corrode, discolour or distort the appliance in any way and is ideal for cleaning orthodontic appliances, dentures, bleaching trays, mouthguards and all dental appliances.

Code: 01NS · **Size:** 45g

EXPRESS DENTURE TABLETS

Our professional effervescent denture cleanser tablets are simple, efficient and easy to use. The combination of the active ingredients removes plaque, impurities, food remains, nicotine, tea, coffee and other stains.

Code: 01PNT · **Pack:** 32pcs

SILICONE TOOTHBRUSH

Nonabrasive toothbrush with soft silicone bristles specifically made for dentures and flexible dentures.

Code: 01STB

ORTHO BRUSH

Orthodontic toothbrush ideal for cleaning interproximal areas, fixed brackets and banded appliances.

Code: 38163-300-00 · **Pack:** 10pcs

Aftercare

CENTRI™ AFTERCARE

Introductory aftercare kits for either acrylic or flexible dentures.

Centri™ 5 (acrylic - 5 weeks) kit contains: display box, denture box, silicone toothbrush, Nitradine®, Nitradine® Shine, Express Denture Tablets and booklet

Code: 60C5CP

Centri™ 8 (flexibles - 8 weeks) kit contains: display box, denture box, silicone toothbrush, Nitradine®, Nitradine® Shine, TCS® Fresh Denture Cleaner and booklet

Code: 60C8CP

TCS® FRESH DENTURE CLEANER

Specifically formulated for use with TCS® and other flexible appliances. Each box contains a 6 month supply.

Code: 01TCSDC24 · **Pack:** 24pcs

Aprons

DENTAL BIBS
Blue clinical bib with velcro type fastening - one size.

DISPOSABLE APRONS
White polythene disposable aprons.

Disinfectants

WHW SURFACE DISINFECTANT

WHW's broad spectrum, alcohol free surface disinfectant has been specially formulated for use in the medical and dental environment on non-invasive medical devices. It is safe to use on surfaces sensitive to alcohol and effective against a wide range of organisms.

Code: 100WHWAFSD   **Size:** 500ml

WHW IMPRESSION DISINFECTANT

A ready to use disinfectant for the disinfection of alginates, silicones, polyether and plaster impressions. WHW's Impression Disinfectant Spray is aldehyde free and fast acting, with full efficacy achieved within five minutes.

Code: 100WHWID   **Size:** 500ml

Duplicating Flasks

RAY FOSTER DUPLICATING FLASK
Metal duplicating flask.

Code: 05DFB   **Size:** 68 x 100 x 80mm

PLASTIC DUPLICATING FLASK
Suitable for use with Agar-Agar/duplicating gels.

Code: 51PDF   **Size:** 65 x 100 x 90mm

Duplicating Gel/Agar

DENTSPLY SIRONA POLYFLEX®
Highest quality universal duplicating gel with properties comparable to silicone. Tear resistant with incredibly high definition.

Code: 95H5525300195   **Size:** 7.5kg

DUBLITOP®
Exceptional quality duplicating gel with extremely high tear resistance and detail reproduction. Typical amount of reuses - 25. Light blue - not suitable for plaster models.

Code: 38108-610-00   **Size:** 5kg

DUPLIKAT
Top quality duplicating gel with very high tear resistance and detail reproduction. Typical amount of reuses - 20. Yellow - not suitable for plaster models.

Code: 38108-600-00   **Size:** 6kg

Duplicating Gel/Agar

DUBLIFORM
Time-tested duplicating gel with high tear resistance and detail reproduction. Typical amount of reuses - 15. Orange - suitable for use in the microwave but not suitable for plaster models.

Code: 38108-500-00   **Size:** 6kg

DUBLIPLAST®
Universal duplicating gel with high tear resistance and detail reproduction. Typical amount of reuses - 15. Violet - suitable for plaster models

Code: 38165-500-00   **Size:** 5kg

TRAY-FIX

Tray adhesive in a handy spray format.

Code	Size
08CHSA	200ml

Lab Software

WHERE DID TRANSACTOR COME FROM?

Transactor started life as an application for booking jobs in and out, keeping a record of the work being processed through the labs; saving time and money on generating job slips using self-carbonating job pads and similar methods in the process. As a result of suggestions from our customers, features such as generating invoices, statements and allocating payments were added and from this, Transactor was born. The latest incarnation, a cloud service, provides the ability for electronic communication between the laboratory and the dental practitioner.

WHY TRANSACTOR?

Our flagship V8 version of Transactor has desktop and cloud elements which allow the users ease of access and the ability for dentists and laboratories to track the jobs in real time, reducing phone time, overhead costs and general frustrations.

TRAINING AND SUPPORT

The Transactor team have written and maintain extensive user guides, knowledge bases, training videos and supporting material. The team provides first class support via email, telephone and remote assistance.

TRANSACTOR FEATURES

Transactor is driving simple laboratory software to even higher performance levels with its cloud integration and features such as:

- ◗ Cloud based communication
- ◗ Lab Ordering App for the dentist
- ◗ App for the lab for ease of access
- ◗ Online prescriptions
- ◗ Barcode system
- ◗ Advanced scheduling
- ◗ 24/7 online tracking
- ◗ Revenue increase
- ◗ Increased productivity
- ◗ Ease of use
- ◗ Backup facilities, which can be automated and sent to the cloud for secure, offsite storage
- ◗ Our commercial module creates compatible data exports to accounting packages such as Sage, Xero and QuickBooks

We listen to our customers! We work closely with you to adapt our products to match the changing requirements of GDPR and Data Protection,

regulatory, governance, quality and efficiency needs.

OUR CUSTOMERS SAY

"Transactor desktop and cloud has really enhanced our business when it comes to communication. It is an amazing tool for communication between the laboratory and the dentist. It has streamlined our processes for getting the job into the lab and sending the job back to the practice. It allows us to send pictures, scans and any messages or comments on the jobs, thereby reducing the telephone calls between the lab and the dentists. It's instant messaging, which is all secure.

Everything is safe and best of all, all communication is in one place.

Transactor desktop and cloud reduces the time for booking jobs in and out, as the jobs come in pre-booked. The technician just needs to scan the paperwork and check the job; that's it, job booked in.

In the future I hope all surgeons and laboratories get to use this software, as it safeguards all communication, transactions and traceability of the work and products. It improves productivity and profitability."

- Chris Lyons (Director, Woodlands Dental Laboratory Ltd)

Light Cure Trays

MEGATRAY WAFERS

Disposable bite registration trays with plastic frames and gauze insert. Pack contains 25 x left and 25 x right.

32BPTH	Spare Set of Hoses	2pcs

SURFACE HARDENER

Self-curing acrylic solution used to harden and seal plaster models.

Code	Size
87R17192000	125ml

TIME OUT

Liquid retardant for modifying the working time of plasters and stones.

Code	Size
66LTO	30ml

Miscellaneous

NANO ROCK

Liquid die stone that is incredibly strong and lightweight compared to traditional gypsums. Abrasion resistant and long-lasting, it is ideal for orthodontic study casts and demonstration models. Nano Rock does not shrink, has outstanding dimensional stability and is clean and precise to trim. Infinite colour variations can be achieved with minimal efforts when using the individual colours and the white base kit.

Code	Description	Size
90NRSKN	Natural Starter Kit	1kg(A)+1kg(B)

CENTRI™ SILICONE SPRAY

All purpose release/lubricant.

Code	Size
50CSS	400ml

MODEL GLOSS

Environmentally friendly solution to add a glossy and dust resistant finish to plaster models.

Code	Size
38166-450-00	4.5kg

Mixing Palettes

THE TRAY

The new benchmark for ceramic mixing trays with a lightweight and smooth aluminium base. The Tray features a large black "pearl glass" work surface and is a collaboration of seven master technicians from around the world.

Code: HPD402-0010

RENFERT LAY:ART CRYSTAL

Contemporary glass mixing tray.

Code: 87R10430000

RENFERT LAY:ART CRYSTAL AQUA XL

Partially self-moistening mixing tray on abrasion free, float glass.

Code: 87R10431000

RENFERT MELODY

Simple porcelain stains tray.

Code: 87R10580100

PORCELAIN MIXING TRAY

Nine well porcelain mixing palette.

Code: 39MP9

PLASTIC MIXING TRAY

Twenty four well plastic mixing palette.

Code: 51PMT

Model Trimmer Wheels

FARO MODEL TRIMMER WHEELS

Code	Description	Pack	Size
05FSW	Carborundum	1pc	254mmø

Pliers

CACHET PLIERS
Used to create retention buttons in our Cachet aligner material.

Code: 84CP

PREMIUM MAXI ADAMS
Large (145mm) Adams pliers with two smooth rectangular beaks. Maximum wire thickness 0.8mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-094-00

PREMIUM MAXI ADAMS WITH ROUND BEAK
Large (160mm) Adams pliers with one smooth, round and one smooth, rectangular beak. Maximum wire thickness 0.8mmø. Includes Premium-Line 10 year guarantee.

Code: 38004-095-00

PREMIUM MEDIUM ADAMS
Medium (120mm) Adams pliers with hardened steel insert and wire guidance groove. Maximum wire thickness 0.7mmø. Includes Premium-Line 10 year guarantee.

Code: 38004-515-00

PREMIUM MEDIUM ADAMS T/C COATED
Medium (120mm) Adams pliers with tungsten carbide coating on beaks. Maximum wire thickness 0.7mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-515-00

EQ-LINE MAXI ADAMS
Maximum wire thickness 0.8mmø.

Code: 38045-016-00

Pliers

EQ LINE MAXI ADAMS WITH ROUND BEAK
Maximum wire thickness 0.8mmø.

Code: 38045-017-00

PREMIUM MAXI ADERER
Large (155mm) three pronged Aderer pliers. Maximum wire thickness 1.5mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-202-00

PREMIUM MEDIUM ADERER
Medium (130mm) three pronged Aderer pliers. Maximum wire thickness 0.9mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-200-00

EQ-LINE MEDIUM ADERER
Maximum wire thickness 0.9mmø.

Code: 38045-008-00

ADAMS CLASP BENDING
Special pliers for easy forming of Adams clasps. Maximum wire thickness 0.7mmø.

Code: 38012-523-00

PREMIUM MEDIUM LOOP FORMING
For bending small springs, eyelets and loops. Maximum wire thickness 0.7mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-053-00

PREMIUM MINI LOOP FORMING
For loop forming and bending of round and rectangular wires. Maximum wire thickness 0.5mmø. Includes Premium-Line 10 year guarantee.

Code: 38003-351-00

Pliers

EQ-LINE MEDIUM LOOP FORMERS
Maximum wire thickness 0.7mmø.

Code: 38045-012-00

MEDIUM NEEDLE HOLDER
According to Mathieu, the convenient and practical design makes these pliers ideal for ligating.

Code: 38000-030-00

PREMIUM YOUNG LOOP
Universal pliers for different size loops, ideal for labial arches. Maximum wire thickness 0.7mmø. Includes Premium-Line 10 year guarantee.

Code: 38012-074-00

HEAVY GAUGE SIDE/MAUN CUTTER
Especially designed cutter for large size wires, which requires little force. Use the bottom part of the plier to cut wire up to 1.3mmø.

Code: 38044-177-00

For a full range of pliers, please ask for the Pliers and Instruments Catalogue.

Polishing

Polishing

CENTRI™ SUPER G

Green compound that is outstanding value for money and gives a mirror shine on all non-precious and precious alloys. The bar has been designed for ease of use and has great pick up on the brush.

Code	Size
78CSGC	400g

PROTHO CLEAN®

Fully synthetic cleaning product for the removal of residual monomer and adding a high lustre finish to acrylic.

Code	Size
04PCS	75ml

LUSTRE

Initial polishing compound for acrylic. Can also be used post pumice for TCS® Unbreakable™ and Karadent™.

Code	Size
11LPC	650g

VONAX

High gloss polishing compound for acrylic.

Code	Size
11VPC	650g

RENFERT UNIVERSAL POLISHING PASTE

Hard polishing compound that creates a high lustre mirror like finish on all acrylics.

Code	Size
87R5131000E	200g

KENDA® 244 BLUE

Universal polishing solution for a high shine on flexible dentures, acrylics, composite, gold and chrome cobalt.

Code	Size
36KQPP	75ml

CENTRI™ EMULSIONS

Animal fat and tissue free liquid polishing compound. Fast and efficient to use, can be used alone or as part of a polishing system. Suitable for use on acrylic, ceramic, precious, non-precious and titanium alloys.

Code	Description	Size
78CEM	Medium	100ml
78CEM-1000	Medium	1ltr
78CEF	Fine	100ml
78CEF-1000	Fine	1ltr

DIALUX® WHITE

1500 grit universal, initial polishing compound.

Code	Size
02DWP	100g

DIALUX® BLUE

1800 grit hard polishing compound for a high-lustre finish on all metals.

Code	Size
02DBP	100g

DIALUX® GREEN

2000 grit hard polishing compound for a mirror finish on chrome cobalt.

Code	Size
02DGP	100g

HYFIN

Traditional coarse polish for the first stage of polishing CoCr frameworks.

Code	Size
11HF	700g

RENFERT SAPHIR

High-lustre polishing compound for use on CoCr frameworks.

Code	Size
87R5150000	250g

TIGER BRILLANT POLISHING PASTE

Quick and easy to use polishing paste that gives a high shine on CoCr alloys.

Code	Size
38190-350-50	60g

Polishing

TIGER DIAMOND

Diamond polishing paste for a high shine on all metals, ceramics, composites and acrylics.

Code	Size
38190-302-00	50g

RENFERT POLISH ALL-IN-ONE

Smear free, universal diamond polishing paste for composites and ceramics.

Code	Size
87R5100000	10g

RENFERT POLISH ZrO$_2$

Extra coarse diamond polishing paste for use on zirconia.

Code	Size
87R5101000	10g

RENFERT POLISH LiSi$_2$

Coarse diamond polishing paste specifically for lithium disilicate.

Code	Size
87R5102000	10g

Pumice

CENTRI™ SYNTHETIC PUMICE

Scented synthetic pumice in a choice of grit, that is easy to use and adheres to the restoration while polishing.

Code	Description	Size
120SP	Medium	2.5kg
120SP15	Medium	15kg
120SPC	Coarse	2.5kg
120SPC15	Coarse	15kg

Pumice

NATURAL PUMICE

Code	Size
01PPL	25kg
01PP	3kg

SILIDENT

Efficient and economic, antibacterial pumice disinfectant.

Code	Size
07SPD	5ltr

Safety Wear

EYESHIELD XTRA

Economic, frameless wrap around safety glasses.

Code: 01SG

UVEX OVER-GLASSES

Safety glasses for the spectacle wearer.

Code: 01SOG

GREEN WELDING GOGGLES

Code: 33CSGW

CLEAR SAFETY GOGGLES

Code: 33CSGC

PRO SPECS

Safety glasses for the protection against UV light.

Code: 01UVG

Saw Blades & Frames

CENTRI™ SAW

Incredibly efficient and popular saw system. The blades are offset making the cut quicker, cleaner and longer lasting.

Code	Description	Pack
51PSH	Saw frame	1pc
51SBL	007" blades	100pcs

ECLIPSE

Comprehensive and durable range of blades and frame.

Code	Description	Pack
33EFS	Eclipse saw frame	1pc
33EBC	Coarse 18tpi blades	100pcs
33EBPS32	Medium 32tpi blades	100pcs
33EBM	Medium fine 44tpi blades	100pcs
33EBF	Fine 60tpi blades	100pcs
33EBVF	Very fine 80tpi blades	100pcs

PINDEX®

Ever popular range of pinned saw blades.

Code	Description	Pack
07SB301	007" PX301 blades	100pcs
07SB302	010" PX302 blades	100pcs

SPIRAL SAW BLADES

Saw blades designed for plaster cutting.

Code	Pack
07SSB	12pcs

Scalpels

SWANN MORTON®

Code	Description	Pack	No.
33SMHL	Long handle 160mm	1pc	
33SMHS	Short handle 120mm	1pc	
33SMBR	Blade remover	100pcs	
33SMB1	#10	100pcs	1
33SMB1A	#10A	100pcs	2
33SMB11	#11	100pcs	3
33SMB12	#12	100pcs	4
33SMB15	#15	100pcs	5

CENTRI™ BLADE

Includes 1 x handle and 12 x replacement blades.

Code: 51CB

TCS® CARVING KNIFE

Precision hook style carving knife for a multitude of uses. Supplied with one blade.

Code: 01TCSZBC

Separators

CENTRI™ PCS

Easy and reliable plaster coating solution that leaves a surface residue and is also suitable for **warm casts.**

Code	Size
01PLC6	650ml
01PLC4	5ltr
01PLC25	25ltr

PLASTER COATING BRUSH

Code: 02PLC4

Separators

CENTRI™ ISO+

Centri™ iso+ creates a smooth layer on damp casts, absorbing quickly into the stone, which is ideal when time is short. It absorbs well into plaster or die stone yet it can still be removed with compressed air if required. It is thicker in consistency than the standard isolating type of separating mediums but thinner than traditional cold mould seals. This means it can be absorbed quickly into small spaces, ideal around plaster tooth margins. It provides a great barrier between plaster/die stone, heat or cold cured acrylics and will also form an effective barrier between stone and waxes. One quickly applied layer is all that is required. Suitable for use on plaster/die stone at all stages of the production process (including **warm casts**).

Code	Size
85CISO	1ltr

CENTRI™ SHIELD

Highest quality cream based isolating material. A single precise application is all that is required to create outstanding separation.

Code	Size
01CSD	500ml

HARVEST MODELSEP™

Premium model separating agent that leaves no film or residue and dries instantly on contact. Works with all plasters, stones and resin reinforced stones.

Code	Size
HPD7065	236ml
HPD7066	946ml

Silicone Putty

ERGASIL

Our groundbreaking laboratory silicone with gel catalyst (which is unlike traditional tin based catalysts) offers incredible accuracy of 50µm and a long working time of 4 minutes. With strong adhesion to cyanoacrylates, compression resistance and two shore hardness options, Ergasil is suitable for all laboratory techniques.

Code	Description	Size
66ERLP80-5	Ergasil 80	5kg
66ERLP5	Ergasil 92	5kg
66ENCAT	Enersyl catalyst	60ml

ANEXSIL

Addition curing silicone (polyvinylsiloxane) suitable for scanning with optical/laser/tactile scanning systems. The material is multifunctional and adapts perfectly to all techniques. The long working time allows the perfect positioning with extreme ease, without incurring risks of pre-hardening. The shore hardness of 70 (red)/90 (blue) is reached in a short time, making it suitable for use with any moulding technique.

- Easy and clean mixing thanks to 1:1 dosage
- High viscosity and workability
- Long working time
- Scannable
- Suitable for moulding techniques
- High detail definition (40µm)
- Final hardness reached in short time
- High resistance to compression
- Compatible with self and heat curing acrylic resins
- Heat resistance over 120°C
- Millable
- High colour contrast
- High dimensional stability

Code	Description	Size
68ANX90	Blue (90)	1kg + 1kg
68ANX905	Blue (90)	5kg + 5kg
68ANX90-10	Blue (90)	10kg + 10kg
68ANX70	Red (70)	1kg + 1kg
68ANX705	Red (70)	5kg + 5kg
68ANX70-10	Red (70)	10kg + 10kg

Duplicating Silicone

CENTRI™ DUPLIKA 12

Ever popular purple duplicating silicone with high tear resistance and incredible definition.

Code	Size
68CD12S	1kg + 1 kg
68CD12L	5kg + 5kg

CENTRI™ DUPLIKA HARD

Pink duplicating silicone with a denser matrix providing even higher tear resistance and definition.

Code	Size
68CDHS	1kg + 1kg
68CDHL	5kg + 5kg

Duplicating Silicone Flask

SILICONE DUPLICATING FLASK

Adjustable duplicating flask for use with silicone.

Code: 01ZDF   **Size:** 45 x 90 x 75mm

Solder/Welding

CoCr WELDING WIRE
Co 65% Cr 28% Mo 5.5%.

Code	Description	Size
38528-210-10	0.35mm	2m
38528-200-10	0.5mm	2m

CoCr SOLD 1
Nickel free, CoCr solder without flux.

Code: 38102-306-00   **Size:** 3g

REMA® FLUX 1
Flux for CoCr Sold 1.

Code: 38102-304-00   **Size:** 25g

CoCr SOLDERING RODS
Including flux for use on all CoCr alloys.

Code: 38142-100-50   **Pack:** 6pcs

UNIVERSAL SILVER SOLDER
Cadmium free universal silver solder on a coil, without flux.

Code: 38380-704-50   **Size:** 10g

DENTAFLUX®
Universal flux for all alloys, especially between precious and non-precious alloys.

Code: 38681-100-00   **Size:** 50g

Solder/Welding

DENTOWELD WELDING ROD
Chrome cobalt welding rods with flux.

Code: 32DWR   **Pack:** 10pcs

NIRANIUM WELDING RODS
Chrome cobalt welding rods without flux.

Code: 05NWR   **Pack:** 25g

NIRANIUM HIGH FUSING SOLDER FLUX
Flux for the Niranium welding rods.

Code: 05NWF   **Size:** 57g

HEAT SCREEN
Protects metals, plastics and ceramics against heat when soldering.

Code: 38380-070-00   **Size:** 100g

RENFERT HOT-STOP
Heat absorbing paste, to stop the transfer of heat when soldering.

Code: 87R1390000   **Size:** 250g

Troughs

RUBBER TROUGH
Black rubber polishing trough, with extraction port and protective glass.

Code	Description
01RPT	Trough
01RPTIT	Optional insert

CENTRI™ IEU TROUGH
Rigid plastic trough with adjustable protective screen.

Code
01IEUPT

Ultrasonic Solutions

ALL CLEANER
Environmentally friendly, concentrated tray cleaner. Thanks to its biodegradable ingredients, All Cleaner has a neutral pH and can be used with or without an ultrasonic bath. It will quickly and efficiently remove alginate, plasters or cement.

Code	Size
66ACP	1ltr

PLASTER AND STONE REMOVER
Concentrated liquid for the removal of plaster and stone from dentures, trays and instruments.

Code	Size
25US1	2ltr

WELCLEAN
Combines detergents, brightening agent and disinfectant to deeply clean and protect dental instruments. Not suitable for use on aluminium.

Code	Size
29WEL2	2ltr

Ultrasonic Solutions

GENERAL PURPOSE CLEANER
Concentrated, biodegradable, non-ammoniated general purpose cleaner.

Code	Size
29GPC	5ltr

ORTHALGENAT® EX
Impression tray cleaner for removing plaster and alginate. Can be used as a concentrate or in an ultrasonic bath.

Code	Size
38150-010-00	1.5kg

Varnish

MEGASEAL N
Surface sealing lacquer reinforced with nano-particulates, providing a highly scratch resistant, glossy surface. Designed for sealing ceramic or plastic surfaces, only a thin layer of Megaseal N is required and can be applied with the brush supplied.

Code	Size
07DCVN	20ml

NANO VARNISH
Light curing one component lacquer with nano-particles, to ensure extra protection against bacteria. Only a thin application is required and the material is very transparent and easy to process. Includes drop measure and microbrush.

Code	Size
D38900	20ml
