

# VITA VIONIC® SOLUTIONS

For digital prosthetics with open CAD/CAM systems

VITA shade determination

VITA shade communication

VITA shade reproduction

VITA shade control

Date of issue: 12.17

VITA – perfect match.

**VITA**

## Product description

VITA VIONIC SOLUTIONS enables the efficient fabrication of CAD/CAM wax setups. First, a time-saving, digital prosthetic setup is generated using CAD software. Second, a precise wax base or a fully formed wax setup made from VITA VIONIC WAX is produced from the denture design

via CAM technology. Once a successful try-in is completed, the denture is conventionally produced in the final stage. With VITA VIONIC, laboratories benefit from higher levels of precision while saving time.

## CAD/CAM WAX SETUP

### What?

- Wax disc for the fabrication of CAD/CAM wax setups

### With what?

- VITA VIONIC WAX in pink for a precise wax base
- VITA VIONIC WAX in white for a full-format wax setup

## BENEFITS

### Efficient wax setup

- Thanks to digital design and CAM production

### Precise wax setup

- Thanks to precisely milled molds based on the digital construction

### Comfortable wax try-in

- Thanks to fabrication of complete CAD/CAM denture out of white wax

## CAD DESIGN

### What?

- CAD software with VITA-specific, coordinated design options

### What for?

#### Simple, patient-specific reconstruction of the function ...

- through the integrated buccal and lingual occlusal concepts
- through the integrated skeletal classes (I + II)
- through the integrated occlusal positions (normal/cross bite)

### What for?

- for the digital, patient-specific denture setup at the touch of a button

## WORKFLOW

- Benefit from the VITA-specific, **coordinated selection of occlusal concepts** during CAD design of the denture.

- For the fabrication of the wax setup, use the **synthetic wax blanks VITA VIONIC WAX**.

- For a secure bond of VITA denture teeth to the base materials, use the **adhesive agent VITACOLL**.

- Use the **cold/hot polymerisate recommended by VITA** for the fabrication of the base, e.g. using an injection or pressure-packing technique.

- For the fabrication, use **suitable polishing instruments** and, for individualization, the **veneering composite VITA VM LC**.

## BASIC INFORMATION

### Characteristics

#### VITA VIONIC WAX

- are shape-stable, temperature-resistant synthetic-wax blanks

### Available shades

- Pink
- White

### Available geometries

- Ø 98.4 mm / H 30 mm

## SYSTEM COMPATIBILITY

### CAD technology partner for VITA Digital Prosthetics

- 3Shape AS

### VITA VIONIC WAX is available for the following systems\*:

- CORiTEC line (imes-icore GmbH)
- DG SHAPE DWX line (DG SHAPE)

\*) Validated VITA system partner for the processing of the selected VITA VIONIC components.
