

CONCOMITANT OFFERS

S_LAB WORKSTATION BY SARATOGA

NEW

The modular S_Lab workstation system by Saratoga represents a new level in both contemporary aesthetics and functionality.

The system has been designed from the ground up and has not been developed for previous incarnations.

Designed by technicians for technicians.

Please contact us for more information.

LISIFUSE

Transparent lithium silicate powder that fuses to any monolithic zirconia restoration and creates a micro thin lithium silicate coating with outstanding adhesion. Improves surface hardness for decreased antagonist abrasion and creates an outstanding high gloss finish.

£119.95	
Code	Size
HPD265-0075	75ml

LISIFUSE CONNECT

Transparent lithium silicate powder that creates a bond between zirconia and any type of ceramic restoration. Intracoronar use allows etching of monolithic zirconia restorations before cementing, even on veneers. Suitable surface preparation is paramount.

£139.95	
Code	Size
HPD265-0050	50ml

KEYMILL™ DENTURE BASE DISC

High impact acrylic discs that are easy and clean to mill, suitable for denture base applications. The final product is extremely strong, vibrant, and aesthetic, with minimal finishing or polishing required.

		£79.95 each	
Code	Description	Size	Dimensions
39KMDBDO30	Original	30mm	98mmø
39KMDBDL30	Light Reddish Pink	30mm	98mmø

KEYMILL™ FLEX WAX DISC

The KeyMill™ Flex Wax Disc has both a flexible yet durable wax composition, which allows removable partial denture frames to be milled for investment casting. Due to the fine composition, the milling result is very precise. It is rigid but flexible enough to maintain the exact clarity and definition of the clasps.

Code	Size	Dimensions	Price
39KMFWD20	20mm	98mmø	£27.95
39KMFWD25	25mm	98mmø	£29.95
