

UPDATE: TRADE ANNOUNCEMENT FROM WHW PLASTICS LIMITED

Dec 16th 2021

COVID-19

While we wish you all a very Merry Christmas, we are facing the prospect of further turbulent times with the new Covid-19 variant.

Based upon the latest information and our internal assessments we will be making the following changes with immediate effect; these changes will stay in place until the New Year when we will be making a review of these new protocols.

Field Based Sales Staff

Field based staff will be working from the office or home. They will be contactable as always by phone or email and can arrange a video call meeting if required.

All technical demonstrations will be available after a risk assessment has been completed and by appointment only.

Deliveries

We will continue with our delivery programme, the drivers will be testing regularly and will be compliant with best working practices to ensure everyone's safety.
