# THE GOLDEN TICKET

PROMO 3

+ **NAVU**

# Supposedly, we Brits have awful teeth\*

**\*Luckily we've built a revolutionary new pressure former that fixes them.**

The Mayku Multiplier is a revolutionary solution for the dental market that allows professionals to create multiple high-quality dental appliances in a single form, quickly and easily.

With its advanced pressure-forming technology, the Mayku Multiplier is capable of producing multiple precise and detailed dental formings for a variety of applications, including mouthguards, retainers, aligners, bleaching trays and more.

Whether you want to increase capacity or reduce time spent forming, the Multiplier can help you increase the efficiency of your lab.

The device is designed to be user-friendly, with intuitive controls and a compact design that makes it easy to set up and operate. All of your favourite Centri™ forming materials will be available at the click of a button with the optimised forming strategies already installed for you.

**MAYKU**

## We've 'hopefully' thought of everything:

- \* The Multiplier has been designed for continuous use with no need for cooling cycles
- \* Built-in compressor supplying up to 4 bar of adjustable pressure
- \* All settings including heat, pressure, cooling and ramping are infinitely adjustable
- \* The compressor can be used to power external devices such as an airline (up to 2cfm)
- \* Can form over 20 appliances in a single use when used in conjunction with the reducing plates
- \* Innovative auto-levelling heating system prevents the material from slumping, creating universally detailed formings
- \* Material reducing plates provide adaptability so you can use the machine with smaller, standard material sizes as well as large format sheets
- \* Compact and easy-to-use, the Multiplier fits comfortably on any desktop
- \* The machine is supplied with an A4 plate (suitable for use with Amoeba Guards & Cachet only) but to aid flexibility you can purchase an additional reducer plate:
  - 1 x 127mm sqr (all materials)
  - 1 x 240mmø (Cachet and Cachet pro only)
  - 7 x 125mmø (all materials)

Additionally, the Mayku Multiplier is built with safety in mind, featuring a range of features that ensure a secure and reliable experience for users. Whether you are looking to improve your forming technology today or hoping to increase your productivity tomorrow, the Mayku Multiplier is an excellent solution that delivers exceptional results.

Code	Description
MKMPF	Mayku Multiplier pressure former
MKMR1X240	Mayku Multiplier reducer plate 1 x 240ø
MKMR1X127	Mayku Multiplier reducer plate 1 x 127 sqr
MKMR7X125	Mayku Multiplier reducer plate 7 x 125ø

## TECHNICAL SPECIFICATION

Resolution <1µm

Forming Area 160 x 380 x 380mm

Maximum chamber pressure 60 PSI / 4 bar

Maximum tank pressure 160 PSI

Maximum temperature 225°C

Dimensions 420 x 515 x 585mm

Weight 57kg

**Exclusively launching at DTS 2024 - stand B15**
